

The Arts, A/V Technology & Communications Cluster is focused on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing art design, journalism, and entertainment services. Students will have the opportunity to improve their art and computer skills and build a professional portfolio that showcases both skills. Students will apply artistic talent to practical problems and learn visual arts principles that prepare them with skills and techniques to work in any number of creative design and entertainment fields.

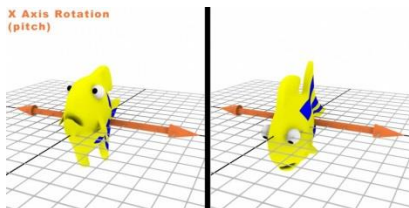

Courses offered:

Principles of Art, AV Technology and Communications

Graphic Design and Illustration

Animation

Advanced Animation
