## TAKE A SIP OF THE TEA

## VENUS BULLDOG ATHLETICS

### Lady Dog Volleyball

We have high hopes for our volleyball program and want to make it the best experience for everyone involved while pushing and working towards getting better every day. A big goal of ours is to get better every day and hopefully make it to playoffs and beyond. We want to make it a good last season for our seniors **Misheley Ahumada, Brittney Hill, Gissel Bustos, Paige Loewen, Isabel Espinosa, and Tatiana Douditski.**

### Bulldog Cross Country

Our cross-country group as a whole have been working hard daily. They have been competing with much bigger schools and doing a great job. A common goal among all of our teams is to make it past district and continue to grow together as a team. We've got a very tight knit group and are constantly competing and working to better each other and themselves.

### Bulldog Football

**Hopes for season:** Throughout the six weeks we have both won and lost games but as a hope, not only within the football program but throughout the community and school, we wish to achieve great things and build our morale, school spirit, and attitude toward the program. Something we heard often among the team and coaches this year is to make it to playoffs. We've gotten positive feedback and improvements to our coaching staff and the athletic program all together.

As a group, we plan and organize events for the school, such as homecoming and the halftime performances. Our mission this year is to create fun events for the entire student body to enjoy and participate in.**

### Dance

**The captain of the dance team, Camilla Cortez, described the girls she works with in dance as very energetic and playful as well as serious when they need to be. As far as her hopes for the team go, Camilla hopes that they can fundraise and progressively get better as a team as well as individually. She also hopes they do well in competition. She sees the team going in a good direction and knows that they do a good job when it comes to getting our students rallied and ready for games. There is also good energy and a lot of positivity from the team as well as the students.**

## Who is “A” talking about this six weeks?

**He is a senior football player, he thinks the football team will do well because of the new coaching staff. He feels like he would like more support from the school and his goals for this season is playoffs. He plans to go to college and hopefully for a sport. A quote from Couch spray, “He is a leader on the team, he is intelligent in football and can direct players, and he has the ability to play college football. He is one of the biggest hitters on the team.” Who Am I? First person to find out gets \$10 gift card.**

## Teacher Spotlight

**Another new face that joined our teaching staff was Mr. Snowton. He is the new Agriculture teacher for our students. He really loves his students and wants nothing but the best for them on a daily basis. Mr. Snowton has become known for delivering inspirational messages to his students. These quotes have brought joy to his students and have led to a stronger culture within the FFA. In his free time, Mr. Snowton also enjoys bull riding and from what his students have said, he is pretty good. We are looking forward to all the knowledge and memories Mr. Snowton will bring to VHS and we will continue to show him support throughout the journey.**

## Administrator Spotlight

**After our interview with the new principal, Ms. Woodworth, we discovered a lot about her. To name a few we learned about her ideas, and her plans for the future of Venus. We asked her why she chose Venus and she stated that, “She knows that she can make a difference and leave a mark.” She doesn’t want people to just think of our small town as a small town. A few changes that she has made in our school have been more language classes and the flex period. Although these are some small changes she wants to be able to start small and then get bigger. There will be some trial and error but she hopes that it will be able to work in the coming years. She has high hopes for more changes and to give the students the experience they deserve.**
